CLOUD-BASED SOLUTION

FOR TELECOM

INDUSTRY

Telecommunications

CLIENT

Our client was founded to make mobility an efficient enterprise service. Company has created a one stop point for mobility in enterprises, helping IT teams to automate mobility services

PRODUCT

The service management platform, which integrate various products in Mobile Device Management, Telecom Carrier billing and ordering, support, HR and finance into a single system. It aggregates and automates information and actions from wireless carriers and EMM solutions.

As a result, customers benefit from full transparency, reliable analytics and process automation. These solutions are achieved without having to access carrier portals or maintain excel spread sheets.

INNOVECS CONTRIBUTION

Full-cycle software development in order to meet the business' needs fast and according to high standards.

TECHNOLOGIES

Java, Spring, ActiveMQ, AWS, Javascript, Angular.js, Html5, CSS3
